ONC Summer Science and Culture camper Nicolai Chase, 16, gets ready to set up a beach seine net (on his shoulders).

CREDIT CHRISTINE TRUDEAU / KYUK

In July, Orutsararmiut Native Council, or ONC, held its first Science and Culture camp for high school students. Campers collected juvenile fish, like baby king and red salmon, and participated in activities in avian biology, ethnobotany, and workshops on federal and state subsistence management. KYUK reporter Christine Trudeau filed this report from their campsite.
